DETAILED ACTION

This communication is in response to amendment filed 2/5/08.

Response to Amendment

The amendments include:

Amended claims: 1-6

Non-changed claims: 0

Canceled claims: 4-50

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The following is a statement of reasons for the indication of allowable subject matter: the prior art fails to teach or render obvious the limitation of independent claims. The Applicant has claims a method for forecasting energy based meteorological data.

Independent claim 1 discloses a method for developing a trading position based on a meteorological forecast and modeling to predict renewable power generation capabilities.

The following prior art references have been deemed most relevant to the allowed claim(s):

The closest prior art Lerner (US Patent Publication 2002/0120555) teaches an electronic commodities trading platform. The application is tailored to members' specific risk management and end-to-end contract execution needs. Lerner is silent to any forecasting or modeling for the traded commodities.

The closest prior art Pionzio (US PG PUB 2002/0029097) teaches a wind farm control system for managing wind turbines for electric power generations. Wind farm is considered a type of renewable energy. Pionzio is silent as to developing a forecast for trading commodities.

The closest prior art Western (NPL article "Computers help keep a weather eye open") describes weather forecasting and the difficult "remains intriguingly unpredictable" it is to predict.

Claims 1-3 are allowed because Learner, Pionzio and Western references as discussed above as the Closest Prior art of record fails to teach or suggest a method of **translating meteorological forecast data to an operations data association with providing electrical power produced from a renewable power generation facility to a power grid and a trading position developed for the units of power based on the uncertainty in the meteorological forecast.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
